Professional Summary

Motivated undergraduate student of Computer Applications with a growing foundation in Python, Git, GitHub, and AI automation. Passionate about learning emerging technologies and developing practical solutions to real-world business challenges. A disciplined, curious, and self-driven learner committed to continuous improvement through hands-on projects and technical learning.

Career Objective

Seeking an opportunity to build a strong foundation in software development and AI automation while contributing to meaningful projects, continuously improving technical skills, and creating practical solutions that deliver value to businesses and users.

Education

Bachelor of Computer Applications (BCA)

Galgotias University

2026–2029 (Expected)

Class XII (CBSE)

Ambience Global Public School

2026

Class X (CBSE)

Ambience Global Public School

2024

Technical Skills

Programming: Python

AI & Automation: n8n, AI Workflow Fundamentals, Prompt Engineering

Version Control: Git, GitHub

Productivity Tools: Microsoft Excel, Microsoft Word

Currently Learning: python , git , GitHub ,Ai Automation

Projects

Practical Learning Projects (Ongoing)

Currently developing hands-on projects in Python and AI automation to strengthen programming,

automation, and problem-solving skills. This portfolio will continue to grow throughout the BCA program with real-world applications.

Certifications

Google Ai professional certificate & Microsoft Azure Fundamentals (AZ-900) — Currently Preparing

Core Competencies

Problem Solving • Quick Learning • Leadership • Self-Learning • Discipline • Time Management • Adaptability • Analytical Thinking

Languages

Hindi — Native Proficiency

English — Professional Working Proficiency

Professional Interests

Artificial Intelligence • AI Automation • Software Development • Business Process Automation • Technology Innovation
